

Curriculum Vitae

Yamila Miguel

address: Niels Bohrweg 2, 2333 CA Leiden, The Netherlands

phone: +31 (0)71 527 5737

email: ymiguel@strw.leidenuniv.nl

website: YamilaMiguel.com

My development as a scientist includes research, teaching, mentoring and outreach. In research, understanding the information hidden in atmospheric observable features in hot rocky and giant exoplanets is one of my main interests. These planets are targets for current and future space and ground base observations. Characterising their atmospheric structure, composition and spectral features, putting them - and our own Solar System - into context to link them with the planetary interior and its formation history is the aim of my work.

Teaching, mentoring and outreach are very rewarding activities for me and also a fundamental part of my growth as a scientist. Teaching is a way to guide students towards the development of curiosity and critical thinking. Promoting science through mentoring minorities allows me to contribute to both the scientific community and the society, and outreach gives me the chance to increase awareness of astrophysics, stimulate interest in science and inspire future scientists.

Research Interests: Exoplanet atmospheres: chemistry and radiative transfer, Planetary interiors, Planetary systems formation.

Current Position

Assistant Professor, Leiden Observatory - The Netherlands

Education

2011 PhD Astronomy Universidad Nacional de La Plata (UNLP) - Argentina

2007 BA Astronomy UNLP - Argentina

Employment, Research Experience & Awards

Research

Teaching

Outreach

Publications - 27 publications in peer-reviewed international journals. Total citations: 483 (as April 2018).

Employment, research experience and awards (continue)

2018- current	Assistant Professor - Leiden Observatory - The Netherlands
2016 - 2017	CNES postdoctoral Fellowship - OCA - France
2015 - 2016	Henri Poincare Postdoctoral Fellowship - OCA - France
2013	Guest-Lecturer "Astrophysics & Astrobiology II" - Universität Heidelberg - Germany
2011 - 2014	MPIA Postdoctoral Fellowship - Germany
2010 - 2011	CONICET¹ type II Graduate Fellowship - Argentina
2007 - 2009	CONICET type I Graduate Fellowship - Argentina
2005 - 2011	Educator, Science Coach - Mundo Nuevo ²
2008 - 2010	Lecturer "Knowing the Universe" - UNLP - Argentina
2007 - 2011	Teaching Assistant "Spherical Astronomy" - UNLP - Argentina
2008 - 2009	Teaching Assistant "Calculus I" - UNLP - Argentina
2005 - 2007	Teaching Assistant "Modern Physics" - UNLP - Argentina
2005 - 2007	Teaching Assistant "Calculus I" - UNLP - Argentina
2007	Joaquin V. Gonzalez Award, to the best GPA - UNLP - Argentina
2001 - 2007	Museum Guide - Museum of Astronomy and Geophysics - UNLP

Publication List (Refereed papers in primary journals only)

Guillot, T., **Miguel, Y.**, Militzer, B. et al. *A suppression of differential rotation in Jupiter's deep interior.*, 2018, Nature, 555, 227-230 (doi:10.1038/nature25775) ([Link](#))

International Collaborations

- **Juno Mission:** member of the science team of NASA Juno mission. I am a member of the interior working group. My role in the collaboration is to ran interior model calculations to determine Jupiter core mass and total mass of heavy elements in the planet's interior. We published 3 papers (Bolton et al., 2017; Wahl et al., 2017; Kaspi et al., 2017). Since this is a NASA mission, most of its members are based in the US. The PI is Scott Bolton (SWRI, Texas, US). Working mostly with Tristan Guillot (Observatoire de la Cote d'Azur, France; William B. Hubbard (University of Arizona, US), Burkhard Militzer (U. of Berkeley, US), Yohai Kaspi (Weizmann , Israel) and Ravit Helled (U. of Zurich, Switzerland).
- **MUSCLES treasure survey collaboration:** it is a survey that aims to observe M stars in the UV. These stars are the focus of many surveys to search of habitable exoplanets and understand the star is crucial to determine the habitability of those worlds. So far we got Hubble time to observe 6 M stars in the UV. I am a member of the successful proposal, helping with the theoretical justification to highlight the relevance of understanding M stars in the UV to model exoplanet atmospheres (France et al., 2016; Youngblood et al., 2016; Youngblood et al.,2017). The members are mostly based in the US. The PI is Kevin France (U. Boulder, Colorado, US). (HST program 13650)
- **Mega-MUSCLES treasure survey collaboration:** is it an expansion of the MUSCLES project to: a) new M dwarf exoplanet hosts with varying properties; b) reference M dwarfs below 0.3 solar masses that may be used as proxies for M dwarf planet hosts discovered after HST's lifetime; and c) more rapidly rotating stars of GJ1132's mass to probe XUV evolution over gigayear timescales. We got Hubble time, the observations will be made during 2018. The members are mostly based in the US. PI: Cynthia Suzanne Froning (University of Texas at Austin, US). (HST program 15071)
- **ARIEL consortium:** I am part of the ARIEL science team. ARIEL is an ESA M4 mission whose objective is to observe exoplanet atmospheres from Jupiter-size down to Earth-size exoplanets in the visible and the infrared. It will be a dedicated telescope to observe exoplanet atmospheres. I am part of the planet formation and chemistry in exoplanet atmospheres working groups. Where we study the possibilities to understand different formation scenarios and the physics and chemistry that we will be able to discover with ARIEL capabilities. This consortium has members of all over Europe. PI of the mission: Giovanna Tinetti (University College, London, UK)

Grants

Co-I.

- 2016 Projects of Scientific and Technological Investigation (PICT). Given by the National Agency of scientific and technology promotion, Argentina. PI: Marcelo Miller (UNLP)
- 2009 Project of Investigation (PIP) . Given by the National Scientific and Technical Research Council (CONICET), Argentina. PI: Juan Carlos Forte (UNLP)
- 2009 Project of Investigation La Plata National University. PI: Rosa Orellana (UNLP)
- 2007 Project of Investigation (PIP) . Given by the National Scientific and Technical Research Council (CONICET), Argentina. PI: Adrian Brunini (UNLP)

Selected Invited Colloquia and Seminars (last 5 years)

2018	Max Planck Institute for Astronomy, Germany
2018	Harvard-Smithsonian Center for Astrophysics, US
2017	University of Bordeaux, France
2017	University of Aarhus, Denmark
2017	University of Leiden, The Netherlands
2017	University of Oxford, UK
2017	University of Bern, Switzerland
2017	University of Zurich, Switzerland
2017	Observatoire de la Cote d'Azur, France
2017	National University of Asuncion, Paraguay
2016	University of California Santa Cruz, US
2016	St. Andrews University, UK
2016	Harvard University, Department of Earth and Planetary Sciences, US
2016	Harvard-Smithsonian Center for Astrophysics, US
2016	National University of La Plata, Argentina
2015	Cornell University, US
2015	Osservatorio di Arcetri, Italy
2014	American Museum of National History, US
2013	Harvard Smithsonian Center for Astrophysics, US
2013	Tokyo Institute for Technology, Japan
2012	Tokyo Institute for Technology, Japan
2012	Max Planck Institute for Astronomy, Germany

Invited Speaker at International Conferences (last 5 years)

2018	Circumplanetary Disks and Satellite Formation, Nagoya, Japan (Review)
2017	Exoplanets and Planet Formation, Shanghai, China (Review)
2017	Nordita PTA program, Stockholm, Sweden
2017	The atmospheres of disks and planets, Ringberg Castle, Bavaria, Germany (Review)
2016	5th Joint Workshop on High Pressure, Planetary and Plasma Physics (HP4), Hamburg, Germany

Invited Speaker at International Conferences (last 5 years) - (continue)

- 2015 11th Recontres du Vietnam: Exoplanetary Science. Quy Nhon, Vietnam
- 2015 Workshop for the opening of the Carl Sagan Institute at Cornell University - US
- 2014 VII Thermodynamics, Disequilibrium and Evolution (TDE) Focus Group workshop, Tokyo, Japan
- 2014 Japanese-German Frontiers of Science Symposium - Bremen, Germany
- 2013 Joint Workshop on High Pressure, Planetary, and Plasma Physics DLR - Germany
- 2012 Annual Meeting of the Astronomische Gesellschaft - Hamburg, Germany
- 2012 NASA Working Group: "Thermodynamics, Disequilibrium and Evolution" - Spain

Teaching

2013

Guest-Lecturer at the Heidelberg University, 1 class at Kaltenecker's course "Astrophysics & Astrobiology II". Course for Master and graduate level.

2007 - 2011

Teaching assistant at the UNLP in "Spherical Astronomy". Mandatory course for undergraduate level.

2008 - 2010

Lecturer at the UNLP in "Knowing the Universe". Course for general public. Scope: Introductory course to Astrophysics for professionals with no previous studies in astronomy.

2008 - 2010

Teaching assistant at the UNLP in "Calculus I". Mandatory course for undergraduate level.

2005 - 2007

Teaching assistant at the UNLP in "Modern Physics". Mandatory course for undergraduate level.

2005 - 2007

Teaching assistant at the UNLP in "Calculus I". Mandatory course for undergraduate level.

Mentored and supervised students

2016-2017

Cornell PhD student Dong Wang. I work with him in a project studying Phosphorous and Sulfur-bearing species in exoplanet atmospheres.

2014

MPIA PhD student Taisiya Kopytova. I co-advise her in a project involving the modelling of thermal structure, photochemistry and spectra of direct imaging exoplanets.

2015 - 2017

Ernesto Ágreda Bastidas, a master physics student at the National University of Colombia, Bogota, Colombia. Mentor him in the improvement of my code to form planetary systems that he used to study the formation of giant planets in his master thesis.

2010 - 2012

Jessica Giovanna Caceres Reategui, a master physics student at the National University of St Augustin of Arequipa, Peru. Mentor her in her master project topic: formation of giant planets.

Outreach and Gender Equality Activities

2014 - 2015

Role Model in the "Science is a girl thing!", part of the "Women in Research and Innovation" campaign which aims to encourage girls to develop an interest in science and to encourage young women in scientific careers.

2005 - 2011

Educator, Science Coach in "Mundo Nuevo", a program of science and technology dedicated to outreach. It is part of the UNESCO initiative, the UNLP, and the direction of culture and education of Buenos Aires. My job consisted in giving lectures and perform lab experiments about different astronomical and physical phenomena at kindergartens, elementary and high schools, including seminars for teachers.

2008 - 2010

Coordinator and chair of weekly seminars. Handled 100% of the organisation of weekly seminars for general public given at the Department of Astronomy and Geophysical Sciences - UNLP. From searching scientific speakers for the seminar to organise and chair the event.

2009

Participant in the International Astronomy Year initiated by the IAU and UNESCO. I participated actively and organised activities for the International Astronomical Year in Argentina. The special projects that I participated are *400 Years of the Telescope*, *100 hours with Astronomy*, *She is an astronomer* and *Astronomical coffee*.

2008

Lecturer in Astronomy course. Teaching in the Astronomy Course (8 x 1.5hr classes) for the staff at the Malargue Planetary, Mendoza - Argentina. The topics were: stellar and planetary system formation and evolution, general characteristics of our Solar System, characteristics of extrasolar planets and detection methods.

2001 - 2007

Museum Guide at the Museum of Astronomy and Geophysics of La Plata. Outreach activities for general public at the observatory and museum, three times a week, including guided tours and workshops for schools (all levels) and University students.

Selected Invited Public Colloquia (more than 50 given)

- 2017 "Astronomy on Tap" - Aarhus, Denmark
- 2017 Planetarium - La Plata, Argentina
- 2017 Meeting of members of the "Club de Astronomia", Villa Mercedes, San Luis, Argentina
- 2016 JSOCA - journée scientifique in Cannes
- 2016 Planetarium - La Plata, Argentina
- 2013 Meeting of members of the Internationale Amateursternwarte - Frankfurt, Germany
- 2013 Albertus-Magnus-Schule Bischofliches Gymnasium - Germany
- 2009 1st Patagonia Meeting on Astronomy Education Esquel - Argentina
- 2009 Dardo Rocha, cultural center La Plata - Argentina
- 2009 37th Science and Technology National Festival San Bernardo - Argentina
- 2009 35th Buenos Aires International Book Festival Buenos Aires - Argentina
- 2009 School of Astronomy and Geophysical Sciences La Plata - Argentina
- 2009 School of Astronomy and Geophysical Sciences La Plata - Argentina
